ROMED WASH GLOVES DRY WITH SOAP
REF: WGDS-1000

Cosmetic conform Regulation (EC) No 1223/2009

Romed soft bathing wipes dry are easy to use bathing gloves used for personal care. The washcloth has soap impregnated in the outer layer and is ready to use after shortly wetting it. The inside of the glove is semi-waterproof.

Using the glove will ease the washing process and save time compared to the conventional method. Easy to use in hospitals and home care. The glove can be used for every part of the body. After use the glove can be easily disposed.
